 - **Honors:** Outstanding Graduate (2025), Outstanding League Cadre (2022); National Scholarship (2024), Xiaomi Scholarship (2023)

INTERNSHIP EXPERIENCE

- Harvest Capital, Alternative Asset Management Division** **Product Management Intern** **Oct 2024 - Dec 2024**
- **Asset Management Plan Operations:** Participated in full-cycle operations of structured products linked to broad-based indices (e.g., CSI A500 Index) and OTC gold options, including product design, strategy positioning, and target profit-taking mechanisms. Assisted in drafting sales collateral and legal documentation for regulatory compliance
 - **Product Promotion & Client Engagement:** Designed promotional materials, such as one-pagers, posters and H5 invitations for private banking and retail banking channels, focusing on 4 product series. Enhanced visual communication for roadshow presentations and supported several high-net-worth client events, including investment seminars and strategy briefings
- SOOCHOW Securities, Consumption Research Group** **Research Intern** **Feb 2024 - Jun 2024**
- **Industry Research:** Conducted research on the duty-free and outbound tourism industry. Collected information and data on Hainan airport and scenic spots, and outbound consumption patterns of Chinese tourists. Compared the 4th quarter and annual figures of 2023 with the same period in 2019, proposing that offshore duty-free and outbound tourism have recovery potential
 - **Company Research:** Focused on listed companies in the hotel industry such as SSAW Boutique Hotel, familiarized with the direct, commissioned, and franchise business models, understood brand positioning and multi-level product matrices, tracked key indicators such as ADR and RevPAR, and became familiar with the valuation systems such as PE and PEG
 - **Summary compilation:** Participated in expert exchange meetings in the duty-free industry, and completed meeting summary
- SDIC Securities Research Center, Industry Research Group** **Research Intern** **Jul 2023 - Oct 2023**
- **Industry Research:** Reviewed over 20 cutting-edge articles and more than 10 industry research reports in the field of biotechnology, and conducted a chain-based analysis. Specifically focused on the applications of non-grain biomass, synthetic biology, and AI technology. Independently completed a draft report of over 35 pages and prepared a corresponding PPT
 - **Company Research:** Examined revenue data and textual information from annual reports and prospectuses. Analyzed the industry's development status and collected public data as supporting evidence. Wrote initial coverage reports on companies such as Fengguang Precision on the BSE, and acquired proficiency in building and using company valuation models
 - **Monthly Report Compilation:** Tracked market news in sectors such as pharmaceuticals and macro-economy

RESEARCH EXPERIENCE

- CITIC Securities Research, Beauty & Commercial Sector Project** **Remote Research Assistant** **Jun 2024 - Jul 2024**
- Compiled competitive landscape data for P&G and daily chemical brands across product lines, utilizing Euromonitor and other channels, to support the team's thematic research on the beauty industry
 - Participated in a Shiseido coverage project, extracting key financial and business data from recent financial reports and assisting in updating financial model worksheets and data reconciliation
- Practical Application Report on OTC Derivatives at COFCO Futures** **Project Leader** **Apr 2024 - Jul 2024**
- Conducted a comparative analysis of policies, regulations, and specific business practices of OTC derivatives domestically and internationally, focusing on business practices and their effectiveness in serving real enterprises and collective farmers
 - Conducted on-site visits to COFCO Futures, attended lectures on the structural design and risk hedging strategies of OTC derivatives, and explored case studies of "Insurance + Futures" applications
- Research on Stock Price Informativeness and Impact of ETF Holdings** **Research Assistant** **Jan 2024 - Jun 2025**
- Developed stock price informativeness indicators for the period 2007-2023, utilizing both stock price non-synchronicity and the correlation between future corporate earnings and current market prices
 - Demonstrated that with the development of ETFs in China, their shareholding behavior enhances the overall stock price informativeness on the main boards of the Shanghai and Shenzhen Stock Exchanges by increasing investor attention

OTHER EXPERIENCE

- **Class Representative:** Served as Class Monitor at the UK campus, collecting student feedback, liaising with the university management team. Helped organize class activities, and supported international students in adapting to the new environment.
- **Student League Branch Secretary:** Responsible for the daily affairs of the Finance 2013 League Branch each term
- **Deputy Minister of Volunteer Service Group:** Arranged departmental work, organized welfare activities such as Volunteer Month, with a total volunteer service time exceeding 150 hours. Awarded Excellent Minister and Top Ten Volunteers
- **English Level:** TEM-8 76, CET-6 613, IELTS 7.5 (Speaking 7.0)
- **Interests and Hobbies:** Guzheng (Level 10), Flute (Level 10), Swimming, Table Tennis.
